

Kyla Gen 2 Smart Wifi Plug

KWFP-210-WF

Overview

Featuring one of the smallest, compact designs in the market, the Kyla Gen 2 Smart Wi-Fi plug is tiny but mighty. The Kyla Gen 2 Smart Wi-Fi plug allows users to control their electronic appliances directly from their smartphones, through the Kyla app, available on both the Apple app store and Google Play.

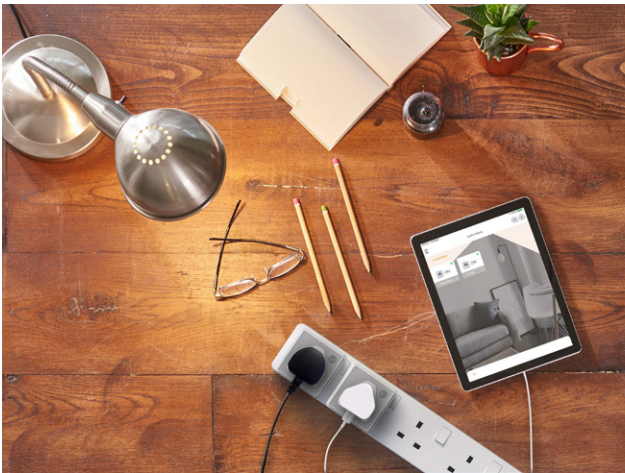

Users will be able to enjoy smart features on their electrical appliances, such as remote control, scheduling for automation and voice assistant support. All without the need for a hub!

Convert any powerpoint into a smart one with Kyla Gen 2 Smart Wi-Fi Plug!

Features

- Small and compact – easy to fit in narrow corners, behind cabinets, and on extension power strips
- No hub required – switch on/off appliances from anywhere without the need for hub
- Simple set up – pair the WiFi plug directly to your smartphone via the Kyla App
- Remotely Control – switch on/off appliances via the Kyla App
- Set Schedules – set schedules to program your appliances to switch on/off at specific timings to conserve electricity
- Voice control – compatible with Google Assistant and Amazon Alexa for voice control command

Works with Google Home and Amazon Alexa for voice control.
